### **GRE Personalized Prep**

#### **Approach**

For some students one-on-one instruction can be a more effective, efficient instructional venue to prepare for the GRE than enrolling in a class with many students. One-on-one allows students to spend time focusing on their needs, not those of other students. Students ask themselves, “Why should I spend time reviewing what I already know? Why should I have to speed through areas that are difficult for me?” Many students conclude that “one size does not fit all” when it comes to GRE preparation.

**GRE Personalized Prep** is a program that is designed to meet your needs in terms of time, content and learning style. The course begins with a practice GRE test. The test results along with your learning style are used to design an instructional program (syllabus, activities, teaching methods and delivery modes) that enables you to reach your GRE goals. Course materials are recommended based on your needs. Your progress determines the instructional pace.

#### **Course Format**

- 12 hours of one-on-one instruction organized according to student’s scheduling constraints – (blocks of 1, 2 or 3 hours)
- Two practice tests (at the beginning and end of the instructional cycle)
- Targeted assessments given throughout the course as needed

#### **Course Content – Emphasis determined by initial test results**

##### ***Verbal Section – Strategies and vocabulary development***

- Antonyms
- Analogies
- Sentence Completions
- Reading Comprehension

##### ***Quantitative Section – Fundamentals and strategies***

- Review of fundamentals in arithmetic, algebra, geometry, data analysis
- Strategies for quantitative comparisons, multiple choice and graphs

##### ***Analytical Writing Section – Two essays***

- Understanding an issue – 45 minute time constraint
- Analyzing an argument – 30 minute time constraint

### **Instructor**

Wynonia Dunn, PhD

### **Scheduling**

Scheduling of sessions is agreed upon before the course begins. All sessions are held at the office of EXCEL Learning Systems.

### **Tuition**

Total Fee: \$1,195

Registration Deposit: \$150

Balance: Due at time of first session

Credit cards and checks accepted

### **Registration**

Register by calling, emailing or visiting our website. Tell us when you are available to take a practice GRE. Also, give us your preferred dates and times for your classes.
